The Brazilian Special Mission, sent out by the Emperor of Brazil to make a Treaty with China, and which at present in this colony, is composed of two Ministers Plenipotentiaries, with equal power—H. E. Real-Admiral S. da Motta, a naval officer who has seen a good deal of active life at sea, and H. E. Senhor Eduardo Calado, an official of large diplomatic experience. As members of the Mission, there are also a Secretary of Legation, Senhor H. Lobo, two Attachés, Capt. Saldanha da Gama, and Lieutenant A. d'Alencar; and a Chinese Interpreter, Monsieur A. Visseire, of the Ecole des Langues Orientales of Paris. The Mission will proceed within eight days to Shanghai by the mid steamers. The Brazilian "Correio Vital d'Oliveira," requiring some repairs, may remain a few days longer in Hongkong, and then proceed home, commanded by Captain Noronha, by way of Japan, San Francisco and the Straits of Magellan. There are 23 young naval officers on board who will profit by this tour around the world.

The wholesale larceny of stores by servants, from which every householder suffers here, is such a crying evil that strong measures should be used to put it down. Above all, when trusted servants who have been some ten or fifteen years in one house are found conspiring to rob their employers of say, bottles of claret and porter by the half dozen, they should not be lightly dealt with. Where a head boy or butler has been found engaged in such wholesale thieving, assisted by other servants whom he has pressed into his service, it should not be considered so great a fact in his favour that he has been some thirteen years in the employ of the same house, as to bribe his punishment down to a patly fortnight's imprisonment and fine. He must have been presumed upon his long service and the good name he has obtained without meriting it, and his punishment should be heavy. He must have, instead of setting an example of probity to the servants under him, established and encouraged an era of thieving in which they could join him. No man becomes utterly dishonest in a moment, and no one knows how long the same sort of thing now positively proven for the first time has been going on. The ungrateful swindler Li Abu, whose case was heard before Mr Ng Choy on Saturday, should either have been remitted to the Supreme Court, or, being dealt with by the magistrate, he should have been more smartly sentenced. Six months' imprisonment would have been lenient enough, and would have done something his present sentence does not do—it would have acted as a warning to the many fellows of the same kidney who are employed in domestic service in the Colony.

A SPECIAL meeting of the seafarers of Union Church was held on Saturday afternoon, under the presidency of Dr. Chalmers, for the purpose of electing four new Trustees, rendered necessary by the withdrawal of the London Missionary Society from the Trust Deed, and the consequent retirement of the four Trustees nominated by that body. The Rev. Dr. Chalmers, Messrs. Ede, Macgregor, and Gillies were elected, and, in conjunction with Messrs. G. Sharp, H. W. Davis, and D. R. Crawford, now form the body of trustees. The future prospects of the Church were then considered, and it was clearly shown that, unless some aid could be obtained from those interested in the building but not actually connected with it, the Church and ground would have either to be sold and a smaller Church erected on another site, or the present building would have to be so altered as to admit of the sale of half of the present site. A permanent endowment fund would, it was hoped, be obtained by one or other of these schemes; but it was at the same time generally regretted that a building which may fairly be looked upon as a memorial of Dr. Legge's labours in Hongkong should be demolished, or even altered. It was therefore agreed that the meeting be adjourned for the period of one week, in order that the feelings of those interested might be ascertained. A gentleman present volunteered to do this, and endeavoured to test the liberality of those interested before the end of the present week. We understand that the present building has, ever since its erection, been open and free to all comers, sea-faring and otherwise, while it has also been the place of worship used by the London Mission congregation of Chinese Christians. Its removal, therefore, would be a public loss, and would involve the sweeping away of one of the Colony's historical landmarks. We wish the present effort every success.

A comparison of the "H. C. D." enlarged on the same addition of the Chinese journal as we gave the other day and makes a very pretty figure of it. What was shown in our columns when we last referred to this matter, was how to place the 16 blocks that they should run up to 34 horizontally, perpendicularly, diagonally, and from six squares. What has to be done, as explained, was the numbers being placed in numerical order from left to right in four rows, to change the second and third of the upper for the third and second of the lower row, the second and third of the left for the third and

second of the right-hand row, the required arrangement being produced in this figure:

1	15	14	4
12	6	7	9
8	10	11	5
13	3	2	16

The higher combination "J. M." makes this. Let the third horizontal row be made the upper one, and change the two left-hand rows one for the other, and we have:

10	8	11	5
15	1	14	9
6	12	7	3

In which the sum of the four numbers, not only as above, but also in any square of four cells, equals 34.

The *Diario de Manila* points out that one advantage resulting from the newly laid cable between Manila and Hongkong is that the numbers of winning lottery tickets may henceforth be made known in China on the day of the drawing. Another advantage is that more universal knowledge of the cable may be won by word from the Manila Observatory to China of the approach of hurricanes which, proceeding from the Pacific, pass over the Philippines on their way thither, as well as intelligence of importance to navigators regarding atmospheric disturbances.

VICEROY RECREATION CLUB.

ANNUAL GENERAL MEETING.

The Annual General Meeting of this Club was held at the Boat House this evening for the purpose of electing a Committee for the ensuing year and passing the Annual Accounts.

Mr. Jackson, the Chairman of the Club, presided, and after a few introductory remarks proposed that the accounts as read be passed.

This was seconded by Mr. Bevis and carried unanimously.

Mr. Jackson was re-elected Chairman for the ensuing year by acclamation and consented to continue in office.

The following gentlemen were then elected to serve on the Committee:—Dr. Clouth, Messrs. H. E. Wodehouse, W. Hayes, R. Beart, E. L. Woodin and M. Grob.

This terminated the business, and the meeting closed with a vote of thanks to the Chairman for presiding.

The cash account shows a balance in hand at 31st May of \$224 as against \$34 at same date last year. The income had been \$322, mainly consisting of members' subscriptions, and including a balance of \$104 from the Regatta account. This had been expended in wages \$974; typhoon repair fund \$1,465; repairs to bath and boats \$402; new boats \$185; athletic and aquatic sports \$18; yacht prize cap \$100; old debts \$308 do. With fixed deposits \$3,000 the total balance is \$2,722 as against \$1,519 at May 31, 1879. The Regatta account showed subscriptions \$1,220 and \$100 entrance fees, which allowed of the balance above named being carried to the V. R. C. account.

A list of the members was appended, containing 289 names.

CANTON.

20th May, 1880.

The following letter, received yesterday from Major Colledge, will interest many persons in China as relating to a historical persons and especially all of the not-inconsiderable number who, from first to last, have been directly or indirectly connected with the parent society of Medical Missions of which the late Dr. Colledge was President until his death in October last.

Caubul Field Force, Afghanistan, 21st April, 1880.

My dear Sir.—Enclosed in a letter from home, yesterday received, was a copy of the last proceedings of the "Medical Missionary Society," for which pray accept my best thanks. A glance at the names of the eminent gentlemen who lend their influence to further the interests of your Society, affords abundant proof that my father's earnest wishes for the advancement and welfare of the institution have been more than realized; and there seems no reason to doubt that with such assistance the Chinese will receive benefit far beyond what he hoped or expected forty years ago. I read the resolution unanimously passed by the members with pride, and with the deepest interest. No more kindly words could have been found in which to express and place on record a verdict such as this is, and I shall always value most highly an acknowledgment so gratifying, and which coming from such a source is not only a tribute to my father's memory, but an honour as well to all who are related to him.

The Society has, I notice, determined to erect a tablet and name a "Ward" in the hospital "in memoriam." I therefore take the liberty of mentioning that one of the lines of the inscription on the tomb is as follows: "For nearly forty years President of the Medical Missionary Society in China."

Before leaving England last January, the

P. & J. Company were good enough to

promise to send to Hongkong a small set

of instruments, &c., &c., the property of

my father, and which I thought might be

of use to your hospital. I trust they have

arrived, but if not, perhaps you would kindly ask to have them forwarded to Canton?

With renewed thanks, believe me, my dear Sir, very sincerely yours,

(Signed) JOHN COLLEDGE.

Ginger N.Y. 20. Canton.

In regard to the Memorial to the Throne

upon the Treaty with Russia, I am told that

a copy of it was already here long ago, and

this fact is confirmed to my mind by con-

versations of Chinese with me quite in the sense of several of its salient points at that time, but unaccompanied by any intimation of prompting from Peking. I now have a Chinese copy, which may be useful for reference.

Anxieties are so far auspicious for the new Vice-regal reign, in the sense of official prosperity and social reform. But there is, I see, a loud note of dissonance *per contra* from Peking in the attractive scheme for the revival of the Waizing lotteries, based on financial needs, consequent upon apprehensions of war, and palliated by declared inability to effect local reform because of the licensing of the Waizing at Macao.

The weather remains fitful, in alternate smiles and tears, such as is becoming or "seasonable" in the capricious month of June.

INCIDENT CONCERNING IN THE PUBLIC MARKET.

London, A. shop, while he was fined \$10, in default of payment, to be imprisoned for 12 days, for doing an act amounting to a public indecency at common law, on the evening of the 30th inst.
